

# SHADE CLOTH

## *INFORMATION GUIDE*

Durable, functional and easy to maintain, Coolaroo shade cloth provides optimal sun protection and outdoor screening.

## SELECTING UV BLOCK

UV block relates to the performance of the shade cloth to reflect or absorb incident Ultra Violet Radiation (UVR). While UVR can be harmful to humans it is vital for healthy plant growth.

To make it easy to select the most suitable UV block for your application Coolaroo shade cloth is broken into 3 tiers: **Garden Cover** (50% UV block), **Screening** (70% UV block) and **People Cover** (90+% UV block).

### GARDEN COVER | 50% UV block

Allows light and water to pass through while protecting from heat stress.  
Best for:

- Seedlings & plants
- Shade Houses
- All Garden Applications

### SCREENING | 70% UV block

Allows air and light to pass through while providing privacy.  
Best for:

- Privacy screening
- Wind Break
- Vehicle Protection

### PEOPLE COVER | 90+% UV block

Optimal UV cover for protection of people and pets.  
Best for:

- Pergolas & gazebos
- Play Area Cover
- Pet Protection

## SELECTING QUALITY

Considerate of budget as well as function Coolaroo shade cloth is categorised into two quality tiers, **'HEAVY-DUTY'** and **'LIGHT-DUTY'**. The **'HEAVY-DUTY'** range comes with a 15 year warranty and is best suited for longer-term usage such as permanent shade structures. **'LIGHT-DUTY'** (available in our Screening tier) is good for general purpose usage. It is covered by a 2 year warranty and is designed for temporary or disposable usage, such as matting or garden throw-over.

Coolaroo has a wide range of shade cloth designed specifically for varying uses around the yard and greater outdoors.

A combination of different materials and construction methods are used to achieve optimal UV block and durability properties.

# COLOURS

The Coolaroo shade cloth colour range makes it easy to compliment popular building materials and common garden tones. Whatever the desired look (blend or contrast) your needs are covered.

## HEAVY-DUTY

## LIGHT-DUTY
