## Installation

Whilst Coolaroo® Outdoor Blinds are designed primarily for use on exterior windows, they are equally at home as drop shades on pergolas, patios, verandahs, etc.

Once you have selected the spot for your Outdoor Blind keep it in the rolled up position and hold the aluminium headrail in place where you would like it installed.

Mark the screw position where you intend drilling holes for the fixing screws, ensuring the blind is level.  
PLEASE NOTE: Wall plugs (not supplied) may be required for brick work. Use an appropriate masonry drill bit.

Remove the blind and using the 3mm drill bit, drill holes where marked.

# Installation

Reposition the blind and using a Phillips head screwdriver, fix the screws to secure the blind.

Unroll the blind to full length. To install the anchor plates, apply light tension to the blind, snap them onto each end of the bottom rail and mark where the screw position is through the holes in the anchor plates.

Using the 3mm drill bit, drill holes and secure plates into place using the timber screws provided.

Lock the base rail into the anchor plates to secure the Outdoor Blind in the fully drawn (down) position.

To attach the rope cleat, hold the cleat in position, mark holes, drill then screw the rope cleat into place using the screws provided. The cleat should be positioned so that the pull cord will be out of reach of young children. Pull the cord taut and wind it tightly around the cleat to hold the Outdoor Blind in place.
